- Gdevelop

WORK HISTORY

GAME DEVELOPER (REMOTE), 10/2025 - current

Visiontillion, Ryad, Saudi

Developing a real time multiplayer arena game inspired by *Crash Bash*, focusing on scalable and responsive gameplay systems. Leading the implementation of core mechanics, player authentication, lobby management, chat and voice systems, player abilities, and real time gameplay synchronization in Unity.

Tech Stack: Photon Fusion, Vivox, Firebase

GAME DEVELOPER, 01/2025 - 09/2025

Gamalith Studio, Bangladesh

Developed casual, 2d puzzle games and hyper casual games in Unity, implementing core mechanics, progression systems, and procedural gameplay. Integrated art, animations, and audio while optimizing performance across devices.

UNITY DEVELOPER, 08/2024 - 11/2024

RMGames Studio

Developed interactive 3D environments and core gameplay systems in Unity for a metaverse project, optimizing levels and implementing social and engagement features.

GAME DEVELOPER, 03/2022 - 12/2023

Word Puzzle Studio, Bangladesh

Developed multiple casual mobile games from prototype to release, contributing to gameplay systems, UI, level design, and overall polish. Implemented core mechanics, scoring, rewards, animations, and sound to enhance player experience.
